# Directions for Use

## ARRANGEMENT

Entries are listed by author and subjects. No title entries are made. Authors and subjects are arranged in one alphabetical file. Under authors and subjects, titles are filed by the first word. Under personal names titles *by* an author precede those *about* him. Subdivisions of subjects are arranged alphabetically or chronologically under the subject. Subdivisions by country are arranged in a separate alphabet after all other subdivisions.

## DESCRIPTION OF ENTRY

Following the title are abbreviations which indicate the kind of illustrations which accompany the article and also any bibliography or bibliographical footnotes which include five or more references. Only that description which pertains to the heading under which an article is listed is given in that entry. For example, under an author's name, the only items given are portraits and bibliography unless the author is the illustrator, while under the subject is given plates, plans, etc., but not the portrait of the author.

## EXHIBITIONS

Articles on exhibitions appear under the heading *Exhibitions* divided by country or under the subhead *Exhibitions* under the place or subject of the exhibit, and, whenever biographical or critical information is given, exhibitions of individual artists are listed under the artist's name.

## ILLUSTRATIONS

Where feasible, under the name of an artist, titles of works of art (up to ten) by him, accompanying the text of the article, are listed in a note following the entry. Individual works by an artist, without text, are arranged by titles alphabetically under the subdivision *Reproductions*. When the same title appears in more than one periodical, entries are combined under one title, the preference being given to the English form, or to the language of the artist.

## REFERENCES

*See* references have been made from alternate forms of personal names and subject headings to the form used for the entries. *See also* references are made from one subject heading to related subject headings.
